

Collinstown Park  
Community College is  
delighted to  
announce its **NEW**  
Data Centre  
Academy  
Certification  
Programme.

*"We are the first  
Microsoft Supported  
Data Centre  
Academy outside of  
the US and our  
programme will run  
in our state-of-the-  
art Data Centre  
Academy lab."*

*"The DC Academy lab  
is a mini-scale 3 rack  
replica DC with the  
look and feel of a  
real-world  
operational data  
centre. It is fully  
equipped and fully  
functional. Read our  
details of the full-  
time courses on  
offer and the learning  
pathways to data  
centre technologies  
and many career  
opportunities"*

## Level 5

### CompTIA A+ 2019

EXAM CODES 220-1001 & 220-1002 (CORE SERIES)

#### QQI Level 5 Component Certificate in Computer Systems and Networks: 5M053

##### Entrepreneurship

“CompTIA A+ 2019 is the foundation of your IT career. CompTIA A+ is the preferred qualifying credential for technical support and IT operational roles. It is about much more than PC repair.”

- Candidates are better prepared to troubleshoot and problem solve.
- Technicians understand a wide variety of issues ranging from networking and operating systems to mobile devices and security.
- A+ supports the ability to connect users to the data they need to do their jobs regardless of the devices being used.”

#### Preparation for Traineeship

The *fundamentals* of connecting computers to networks

“This exciting first step could lead to a rewarding IT career. Because a sure way to excel—no matter which area of IT you choose—is to learn the right computer fundamentals. Cisco’s IT Essentials covers this as well as shares the career skills needed for entry-level IT jobs. Plus, you’ll enjoy working with Cisco’s Networking Academy’s advanced simulation tools and having multiple hands-on labs to really hone your troubleshooting skills and immediately practice what you learn!

Also *prepare* for the **CompTIA A+ Certification**. No prerequisites or computer knowledge required.”

## Level 6

### CompTIA Server+

#### QQI Level 6 Component Certificate in Computer Systems and Networks: 6M0695

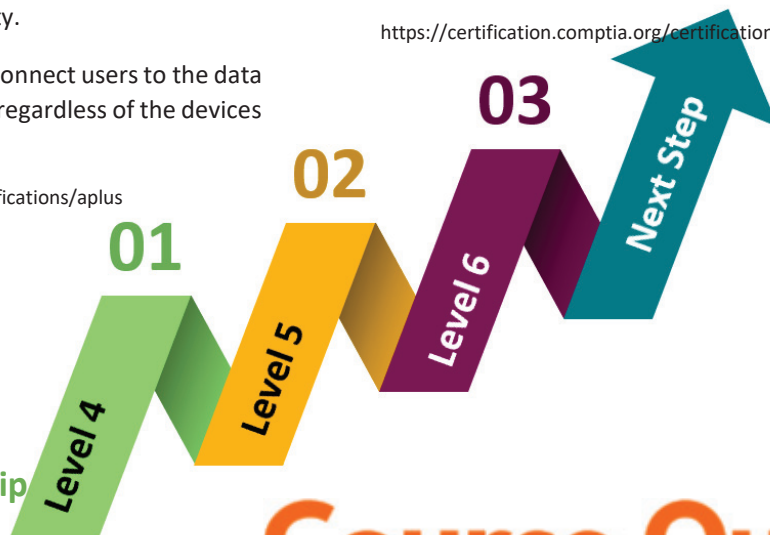

“CompTIA Server+ certified candidates can work in any environment because it is the only vendor-neutral certification covering the major server platforms. It is the only industry certification that covers the latest server technologies including virtualization, security and network-attached storage.” CompTIA Server+ certification validates the skills necessary to be a server administrator. Successful candidates will have mastered the following concepts:

- Virtualization
- Storage
- Security
- Troubleshooting

#### Data Centre Technologies

#### Server Administration
