

Covid Response Plan & Policy Statement

2021 2022

**Collinstown Park
Community College**

COVID-19 Policy Statement

A COVID-19 policy outlines the ongoing commitment of the school to implementing the plan and help prevent the introduction and spread of the virus. The revised updated policy has been signed and dated by the chairperson and principal of the BOM/ETB and brought to the attention of the staff, students, parents and others.

Collinstown Park Community College is committed to providing a safe and healthy workplace for all our staff and a safe learning environment for all our students. To ensure that, we have developed and updated the following COVID-19 Response Plan. The BOM/ETB and all school staff are responsible for the implementation of this plan and a combined effort will help contain the spread of the virus. We will:

- continue to monitor our COVID-19 response and amend this plan in consultation with our staff
- provide up to date information to our staff and students on the Public Health advice issued by the HSE and Gov.ie
- display information on the signs and symptoms of COVID-19 and correct hand-washing techniques
- agree with staff, a worker representative who is easily identifiable to carry out the role outlined in this plan
- inform all staff and students of essential hygiene and respiratory etiquette and physical distancing requirements
- adapt the school to facilitate physical distancing as appropriate in line with the public health guidance and direction of the Department of Education
- keep a contact log to help with contact tracing
- ensure staff and students engage with the induction / familiarisation briefing provided by the Department of Education
- implement the agreed procedures to be followed in the event of someone showing symptoms of COVID-19 while at school
- provide instructions for staff and students to follow if they develop signs and symptoms of COVID-19 during school time
- implement cleaning in line with Department of Education advice

All school staff will be consulted on an ongoing basis and feedback is encouraged on any concerns, issues or suggestions.

This can be done through the Lead Worker Representative(s), who will be supported in line with the agreement between the Department and education partners.

Signed Brian Fleming Chairperson Board of Management

Signed: Pauline Duffy Principal

Date: 27th August 2021

COVID-19 Response Plan

A COVID-19 Response Plan is designed to support the staff and Board of Management (BOM)/Education Training Board (ETB) in putting measures in place that aim to prevent the spread of COVID-19 in the school environment

The COVID-19 Response Plan details the policies and practices necessary for a school to meet the Government's '*Work Safely Protocol*', to prevent the introduction and spread of COVID-19 in the school environment.

It is important that school-based teaching and learning and the operation of school facilities complies with the public health advice and guidance documents prepared by the Department. Doing so minimises the risk to students, staff and others. The response plan supports the sustainable operation of schools where the overriding objective is to protect the health of staff and students while promoting the educational and development needs of the students in the school. The COVID-19 response plan is a living document and will be updated in line with the public health advice as appropriate for post primary schools.

In line with the Work Safely Protocol, the key to maintaining a safe school requires strong communication and a shared collaborative approach between the BOM/ETB, staff, students and parents.

The assistance and cooperation of all staff, students, parents, contractors and visitors is critical to the success of the plan.

Reviewing the safe operation of schools

The BOM/ETB aims to facilitate the continuation of school based teaching and learning and a safe working environment for staff. The operation of schools must be done safely and in strict adherence to the public health advice and any guidance issued by the Department of Education.

Details for the safe operation of the school include the following:

- Arrangements to keep up to date with public health advice and Department of Education updates;
- Arrangements to pass on this information in a timely manner to staff, students, parents and others as required;
- Ensure that staff have reviewed the training materials provided by the Department of Education (***details at Section 4.1 of Covid 19 Response Plan for the Safe & Sustainable Operation of Post Primary Schools***);
- Provided staff with access to the Return to Work (RTW) form
- Identify Lead Worker representatives
- Display posters and other signage to prevent introduction and spread of COVID-19
- Make the necessary changes to the school or classroom layout if necessary to support the redesign of classrooms to support physical distancing

- Remove unnecessary clutter to facilitate ongoing cleaning of the school taking into account the importance of having educational materials to create a stimulating learning environment;
- Update the health and safety risk assessment
- Make necessary arrangements to limit access to the school to necessary visitors and maintain records of contacts to the school
- Review the school buildings to check the following after any period of closure:
 - Does the water system need flushing at outlets following low usage to prevent Legionella disease?
 - Has school equipment and mechanical ventilation been checked for signs of deterioration or damage before being used again?
 - Have bin collections and other essential services resumed?

There are checklists in place to assist schools on the details of what is needed for these arrangements in the Appendices of the Department of Education ***Covid 19 Response Plan for the Safe & Sustainable Operation of Post Primary Schools***;

Induction Training (to be completed by new staff)

All new staff will undertake and complete COVID-19 Induction Training prior to returning to the school building. The aim of such training is to ensure that staff have full knowledge and understanding of the following:

- Latest up to-date advice and guidance on public health
- COVID-19 symptoms
- What to do if a staff member or pupil develops symptoms of COVID-19 while at school
- Outline of the COVID-19 response plan

Staff will be kept fully informed of the control measures in place in the school and their duties and responsibilities in preventing the spread of COVID-19 and will be updated with any changes to the control measures or guidance available from the public health authorities.

If a staff member is unsure about any aspect of the COVID-19 Response Plan, the associated control measures, or his/her duties, he/she should immediately seek guidance from the Principal who is supported in this role by the BOM/ETB.

Procedure for Returning to Work (RTW)

In order to return to the workplace, staff must complete a **Return to Work (RTW)** form, which is available online or from the principal. A copy is attached also at ***Appendix 2 of Covid 19 Response Plan for the Safe & Sustainable Operation of Post Primary Schools***;

A RTW form should be completed and returned to the school before returning to work. .

The principal will also provide details of the **Induction Training** for completion by staff and details of any additional health and safety measures in place in the school to facilitate the staff member's return to the school facility.

Details of the working arrangements that apply to the very high risk school staff, is in accordance with those applying for the public service generally, and is detailed in the relevant Department of Education circulars available on the Department's website.

Lead Worker Representative

The protocol provides for the appointment of a Lead Worker Representative (LWR) in each workplace. The LWR will work in collaboration with the employer to assist in the implementation of measures to prevent the spread of COVID -19 and monitor adherence to those measures and to be involved in communicating the health advice around COVID-19 in the workplace.

This section sets out how the provisions will operate. The process for appointment of the lead worker representative in schools has been agreed centrally between the Department of Education and the education partners.

Responsibility for the development, updating and implementation of the COVID-19 Response Plan and the associated control measures lies primarily with the Board of Management/ Education and Training Board and school management.

Strong communication and a shared collaborative approach is key to protecting against the spread of COVID-19 in schools, and looking after the health, safety and wellbeing of staff and students. Adherence to the Work Safely Protocol will only be achieved if everyone has a shared responsibility in implementing the measures contained within the Protocol in their place of work.

If a staff member has any concerns or observations in relation to the COVID-19 Response Plan, control measures or the adherence to such measures by staff, students or others he/she should contact the lead worker(s) who will engage with the principal/BOM.

Role of the Lead Worker Representative

In summary, the role of the LWR is to:

- Represent all staff in the workplace regardless of role, and be aware of specific issues that may arise in respect of different staff cohorts;
- Work collaboratively with school management to ensure, so far as is reasonably practicable, the safety, health and welfare of employees in relation to COVID-19;
- Keep up to date with the latest COVID-19 public health advice;
- In conjunction with school management, promote good hygiene practices such as washing hands regularly and maintaining good respiratory etiquette along with maintaining social distancing in accordance with public health advice;
- Assist school management with implementing infection prevention control measures to suppress COVID-19 in the workplace in line with the Work Safely Protocol and current public health advice;

- In conjunction with school management, monitor adherence to measures put in place to prevent the spread of COVID-19;
- Conduct regular reviews of safety measures;
- Report any issues of concern immediately to school management and keep records of such issues and actions taken to rectify them;
- Consult with the school management on the school's COVID-19 Response Plan in the event of someone developing COVID-19 while in school including the location of an isolation area and a safe route to that area;
- Following any incident, assess with the school management any follow up action that is required;
- Consult with colleagues on matters relating to COVID-19 in the workplace;
- Make representations to school management on behalf of their colleagues on matters relating to COVID-19 in the workplace.

The school appointed two Lead Worker Representatives

<i>Name(s) of lead worker representative:</i>	<i>Contact details:</i>
Anthony Dowling	anthonydowling@collinstownpark.ie
Nicola Walsh	nicolawalsh@collinstownpark.ie

All staff, students, parents, contractors and visitors have a responsibility both as individuals and collectively to have due regard for their own health and safety and that of others and to assist with the implementation of the COVID-19 Response Plan and associated infection prevention control measures.

Full details of the arrangements which apply for the LWR in post primary schools is set out at **Appendix 3 & 8 of Covid 19 Response Plan for the Safe & Sustainable Operation of Post Primary Schools**);

Signage

Schools are required to display signage outlining the signs and symptoms of COVID-19 and to support good hand and respiratory hygiene.

Please see link below to these posters. Any such supply can be sourced locally.

<https://www.education.ie/en/The-Department/Announcements/information-for-schools-preschools-and-third-level-institutions-on-the-coronavirus.html#1>

The school has displayed the posters in prominent areas such as offices, corridors, staffroom area, classrooms and toilets.

Making Changes to School Layout

Maintaining physical distancing in the school environment is recommended as one of the key infection prevention control measures to minimize the risk of the introduction and spread of COVID-19.

Classrooms have been re-configured to support physical distancing in line with the guidance.

Health and Safety Risk Assessment

COVID-19 represents a hazard in the context of health and safety in the school environment. A risk assessment to identify the control measures required to mitigate the risk of COVID-19 in school settings is included on page 23 of this document.

First Aid/emergency procedure

The standard First Aid/emergency procedure shall continue to apply. In an emergency or in case of a serious incident, schools should call for an ambulance or the fire brigade on 112/999 giving details of location and type of medical incident.

Access to School and Contact Log

Access to the school building will be in line with agreed school procedures.

Arrangement for necessary visitors such as contractors and parents will be restricted to essential purposes and limited to those who have obtained prior approval from the principal. The Department of Education Inspectorate may also need to visit schools and centres for education to support them as appropriate in the implementation of public health advice relating to creating a safe learning and working environment for all.

The prompt identification and isolation of potentially infectious individuals is a crucial step in restricting the spread of the virus and protecting the health and safety of the individuals themselves and other staff, contractors and visitors at the workplace. A detailed sign in/sign out log of those entering the school facilities should be maintained. The school should maintain a log of staff and students contacts.

The Data Protection Commission has provided guidance on the data protection implications of the return to work protocols. This advice can be found here:

<https://www.dataprotection.ie/sites/default/files/uploads/2020-07/Data%20Protection%20implications%20of%20the%20Return%20to%20Work%20Safely%20Protocol.pdf>

All school records and data must be maintained and processed in compliance with the GDPR and the Data Protection Acts. The responsibility for compliance with the legislation rests with each school (or ETB) in their role as data controller.

Infection Prevention Control Measures - To prevent Introduction and Spread of COVID-19 in Schools

One of the key messages to manage the risks of COVID-19 is to do everything practical to avoid the introduction of COVID-19 into the school. If infection is not introduced it cannot be spread. The risk of spreading the infection once introduced exists in all interpersonal interactions; student - student, teacher - teacher and teacher- student, and must be managed in all settings.

A range of essential control measures have been implemented to reduce the risk of the spread of COVID -19 virus and to protect the safety, health and welfare of staff, students, parents and visitors as far as possible within the school. The control measures shall continue to be reviewed and updated as required on an ongoing basis.

It is critical that staff, students, parents and visitors are aware of, and adhere to, the control measures outlined and that they fully cooperate with all health and safety requirements.

The best ways to prevent the spread of COVID-19 in a workplace or any setting is to practice physical distancing, adopt proper hand hygiene, follow respiratory etiquette and increase ventilation.

Staff, should note that they have a legal obligation under Section 13 of the Safety, Health and Welfare at Work Act 2005 to comply with health and safety requirements and to take reasonable care for the health and safety of themselves, their colleagues and other parties within the workplace.

How to Minimise the Risk of Introduction of COVID-19 into schools:

Promote awareness of COVID-19 symptoms

- Advise staff and students that have symptoms not to attend school, to phone their doctor and to follow HSE guidance on self-isolation;
- Advise staff and students to self-isolate or restrict their movements at home if they display any signs or symptoms of COVID-19 and contact their family doctor to arrange a test
- Advise staff and students, to follow the HSE advice if they are a close contact of a suspected/ confirmed case of Covid-19
- If they have travelled outside of Ireland; in such instance staff and students are advised to consult and follow latest Government advice in relation to foreign travel.
- Advise staff and students that develop symptoms at school to bring this to the attention of the Deputy Principal, Ms Friel promptly;
- Ensure that staff and students know the protocol for managing a suspected case of COVID-19 in school

- Advise staff and students to cooperate with any public health officials and the school for contact tracing purposes and follow any public health advice in the event of a case or outbreak in the school;
- Everyone entering the school building needs to perform hand hygiene with a hand sanitiser;
- Visitors to the school during the day should be by prior arrangement and should be received at a specific contact point;
- Physical distancing of 2 metres should be maintained between staff and visitors where possible.

Know the Symptoms of COVID-19

In order to prevent the spread of COVID-19 it is important to know and recognise the symptoms of coronavirus (which includes the DELTA variant).

Common symptoms of coronavirus include:

- a fever (high temperature - 38 degrees Celsius or above).
- a new cough - this can be any kind of cough, not just dry.
- shortness of breath or breathing difficulties.
- loss or change in your sense of smell or taste – this means you've noticed you cannot smell or taste anything, or things smell or taste different to normal
- Fatigue
- Aches and Pains

Other uncommon symptoms of coronavirus include:

- sore throat
- headaches
- runny or stuffy noses
- feeling sick or vomiting
- diarrhoea

Infection with the virus that causes COVID-19 can cause illness, ranging from mild to severe, and, in some cases, can be fatal. It can take up to 14 days for symptoms to show..

If you have any symptoms of COVID-19 (coronavirus), self-isolate (stay in your room) and phone your family doctor straight away to see if you need a free COVID-19 test.

Getting an early diagnosis means, you can get the help you need and take steps to avoid spreading the virus, if you have it.

For the complete list of symptoms, please refer to the HSE Website. Symptoms may be subject to change so regular review of the HSE Website is advised.

COVID-19 Tracker App

COVID Tracker app is a free and easy-to-use mobile phone app that will:

- alert you if you have been in close contact with someone who has tested positive for COVID-19 (coronavirus)
- keep other app users safe by alerting them if you test positive for COVID-19
- give you advice on what to do if you have symptoms

You can download the free app from Apple's AppStore or the GooglePlay store

Employers and workers must keep themselves up to date on Public Health information as this can be updated on a regular basis. Public Health information on close contacts, casual contacts and testing is available from the HSE website.

Respiratory Hygiene

Make sure you, and the people around you, follow good respiratory hygiene. This means covering your mouth and nose with a tissue or your bent elbow when you cough or sneeze. Then dispose of the used tissue immediately and safely into a nearby bin.

By following good respiratory hygiene, you protect the people around you from viruses such as cold, flu and COVID-19.

Hand Hygiene

Staff and students should understand why hand hygiene is important as well as when and how to wash their hands.

Schools should promote good hygiene and display posters throughout the schools on how to wash your hands. Follow the HSE guidelines on handwashing:

<https://www2.hse.ie/wellbeing/how-to-wash-your-hands.html>

Hand hygiene can be achieved by hand washing or use of a hand sanitiser (when hands look clean).

Use of hand hygiene facilities including wash hand basins needs to be managed so as to avoid congregation of students and staff waiting to use wash hand basins and hand sanitisers.

There is a requirement for access to hand washing facilities after activities that are likely to soil hands, for example playing outside or certain sporting activities as hand sanitiser does not work on dirty hands.

Hand sanitiser dispensers can be deployed more readily at exit and entry points of schools and classrooms and care should be taken to clean up any hand sanitizer spills to prevent risks of falls.

Warm water is preferable to hot or cold water for hand washing but if the plumbing system only supplies cold water, a soap that emulsifies easily in cold water should be used.

Wash hand basins, running water, liquid soap and hand drying facilities is provided in all toilets, kitchens and any food preparation areas.

Hand washing facilities should be maintained in good condition and supplies of soap and towels should be topped up regularly to encourage everyone to use them.

Hot air dryers are an acceptable alternative for hand drying but must be regularly maintained. There is no evidence that hand dryers are associated with increased risk of transmission of COVID-19.

Posters displaying hand washing techniques and promoting hand washing should be placed on walls adjacent to washing facilities and can be laminated or placed in a plastic sleeve.

Hand sanitiser is suitable for use for hand hygiene when hands are not visibly soiled (look clean).

Evidence of effectiveness is best for alcohol based hand rubs but non-alcohol based hand rubs can be used too.

When hand rubs/gels are being used in school care should be taken to ensure that students do not ingest them as they are flammable and toxic. Alcohol-based sanitiser must not be stored or used near heat or naked flame

Choosing a Hand Sanitiser

Hand sanitising gels are biocides and fall under the Biocidal Products Regulation (BPR) – Regulation (EU) 528/2012. The Pesticide Registration and Control Division (PRCD) of the Department of Agriculture, Food and the Marine (DAFM) is the competent authority for biocides in Ireland. Only biocidal products listed on the DAFM biocide product register are legal to market and use in Ireland. Schools should ensure that all sanitisers and disinfectants they have carry a PCS 9xxxx, PCS 1xxxxx, IE/BPA 7xxxx or an EU-000xxx-xx registration number on the label. Each product registered by DAFM will carry a unique registration number specific to that particular product. If the product label does not contain any of these number formats, Schools should not purchase or use the product. To confirm the biocide can be used on the Irish market, Schools can check the registers of products online at

Hand sanitisers for use against COVID-19 must contain a minimum of 60% alcohol. Non-alcohol based hand sanitiser may also be used. However, in choosing a hand sanitiser, it is important to ensure that it is effective against Coronavirus.

Frequency of Hand Hygiene

Students and staff should perform hand hygiene:

- On arrival at school;
- Before eating or drinking;
- After using the toilet;

- After playing outdoors;
- When their hands are physically dirty;
- When they cough or sneeze.

A drawdown framework which was established for the 2020/21 school year will continue to remain in place for the 2021/22 school year to enable schools to purchase necessary supplies of hand-sanitisers and PPE requirements. The Department will provide funding for the costs associated with the hand sanitising and PPE requirements in schools.

Physical Distancing

Physical distancing can be usefully applied in a post primary school setting allowing for some flexibility when needed. It must be applied in a practical way to recognise that the learning environment cannot be dominated by a potentially counterproductive focus on this issue. Care should be taken to avoid generating tension or potential conflict and some flexibility in the implementation of measures may be required at time.

It is also recognised that it is not always possible for staff to maintain physical distance from students and it is not appropriate that they would always be expected to do so where this could have a detrimental impact on the student i.e. if a student sustains an injury and requires first aid.

However where possible staff should maintain a minimum of 1 m distance and where possible 2m. They should also take measures to avoid close contact at face to face level such as remaining standing rather than sitting beside/crouching down.

Physical distancing falls into two categories:

- Increasing separation
- Decreasing interaction

Increasing separation

In recognition that a 'one size fits all' approach would not be appropriate as schools themselves are best placed to decide on the appropriate configuration for their school, the Department has developed a *Framework to maintain Physical Distancing in the Classroom in Post Primary Schools with a full return of all Students for the 2020/21 School Year*. This remains in place for the 2021/ 2022 School Year. The Framework sets out a suite of available measures that must be implemented at individual school level to the greatest possible extent.

The following measures set out in the Framework are used:

1. Reconfigure class spaces to maximise physical distancing;
2. Utilising and reconfiguring all available space in the school in order to maximise physical distancing;
3. Reconfiguring Classes;

A link to the "Framework to maintain Physical Distancing in the Classroom in Post Primary Schools with a full return of all Students for the 2020/21 School Year" is provided [here](#).

You can see a link to illustrated classroom layouts to maintain social distancing [here](#).

Decreasing interaction

The extent to which decreasing interaction is possible in a post primary school will depend on the school setting and a common-sense approach is required recognising the limits to which this can be achieved between students.

In post primary schools physical distancing of 2m where possible or at least 1m should be maintained between desks or between individual students or staff.

As far as possible and practical, students would remain in the classroom and teachers would move between rooms.

As far as possible and practical students would be assigned to a main class cohort which would remain in the classroom for most subjects, with teachers moving between rooms.

Where possible and practical double classes should be planned to minimise movement during the day.

Where students have an elective subject they would move quickly into the new class and would be seated with members of their class cohort, observing as much physical distance as possible.

Sanitising would be required when moving between classes by teachers and students.

Physical distancing between the teacher and class would be observed.

Where movement of class groups between rooms is required it should be planned to minimise interaction with other class groups.

Limit interaction on arrival and departure and in hallways and other shared areas.

Social physical contact (hand to hand greetings, hugs) should be discouraged.

Where students need to move about within the classroom to perform activities (access to a shared resource) it should be organized to the greatest degree possible to minimise congregation at the shared resource.

Staff and students should avoid sharing of personal items.

Where teaching and learning involves use of keyboards or tablets, the contact surface of the device should be cleaned regularly and hand hygiene encouraged.

Physical Distancing outside of the classroom and within the school

School drop off/collection

Arrangements for dropping off/collecting students should be arranged to maintain physical distancing of 2m where possible.

Walking/cycling to school should be encouraged as much as possible.

If schools have additional access points, consideration may be given to whether they can be used to reduce congestion.

Students should head straight to their designated learning space/classroom.

Staff

A distance of 2m is recommended for physical distancing by staff. This is particularly relevant to distancing between adults when they are not engaged in teaching such as the staff room and arriving to work.

If 2m cannot be maintained in staff groups, as much as distance as is possible and updated guidance on face covering should be observed.

Physical distancing should be observed between staff members within the staff room through the use of staggered breaks etc.

Staff “pods” or teams who work together and take breaks together are implemented.

Staff meetings should be held remotely or in small groups or in large spaces to facilitate physical distancing.

Implement no hand shaking policy.

Minimise gathering of school staff at the beginning or end of the school day.

Staff can rotate between areas/classes but this should be minimized where possible.

Canteen

Ensure physical distancing is applied in lunch areas

Staff Lunch Pods are implemented

Implement a queue management system.

Make sure students clean their hands before and after entering the canteen area.

Corridors and Stairwells

Briefly passing someone in a hall is very unlikely to contribute significantly to the spread of infection if people do not have physical contact and avoid informal group discussions.

Ventilation

The Department has published guidance setting out the practical steps for good ventilation in accordance with public health advice ‘*Practical Steps for the Deployment of Good Ventilation Practices in Schools*’ The guidance sets out an overall approach for schools that windows should be open as fully as possible when classrooms are not in use (e.g. during break-times or lunch-times (assuming not in use) and also at the end of each school day) and partially open when classrooms are in use. The guidance provides that good ventilation can be achieved in classrooms without causing discomfort, particularly during cold weather. The

Department has also published guidance on how these practical steps measures can be supplemented and enhanced by the use of Carbon Dioxide (CO₂) monitors. Links to all aforementioned guidance can be accessed [here](#).

Use of PPE in Schools

The Department has published “Guidance to Post Primary Schools on PPE consumables and equipment” on gov.ie/backtoschool. This provides schools with the information needed on the appropriate quantities of PPE consumables and equipment to support the safe and sustainable operations of schools.

The updated advice from the HPSC to the Department of Education has recommended that face coverings should be worn by staff members where it is not possible to maintain a physical distance of 2 metres from other staff, parents, essential visitors or students. The Department has accepted this recommendation. Accordingly, it is now a requirement for face coverings to be worn by staff members where it is not possible to maintain a physical distance of 2 metres from other staff, parents, essential visitors or students..

Workers should be trained in the proper use, donning/doffing, cleaning, storing and disposal of PPE. The HPSC has produced posters and videos on the correct donning and doffing of PPE available on the HPSC and HSA websites https://www.hsa.ie/eng/topics/covid-19_coronavirus_information_and_resources/covid-19_business_supports/business_supports/hse-hpsc_posters_and_videos/

PPE will also need to be used at certain work activities or work areas. These might include roles such as:

- Performing intimate care
- Where a suspected case of COVID-19 is identified while the school is in operation
- Where staff are particularly vulnerable to infection but are not in the list of those categorised as people in very high risk groups, or may be living with people who are in a very high risk category;
- Administering first aid

Reception Areas

Perspex is used in reception areas where it is not possible for staff to maintain a physical distance of 2m from other staff or students. Minor works funding grant can be used for this purpose.

Masks/Face Coverings

The wearing of face masks in general is not a substitute for other measures outlined below (physical distancing, hand hygiene, respiratory etiquette, adequate ventilation, minimising contacts) but they are to be used in addition to these protective measures, especially where maintaining physical/social distancing is difficult.

Face masks act as a barrier to help prevent respiratory droplets from travelling into the air and onto other people when the person wearing the face mask coughs, sneezes, talks or raises their voice. Face masks are therefore intended to prevent transmission of the virus from the wearer (who may not know that they are infected) to those with whom they come into close contact.

It is therefore a requirement that teachers, staff and students attending post primary schools wear a face mask when a physical distance of 2m from other staff or students cannot be maintained.

In certain situations the use of clear visors should be considered, for example staff interacting with students with hearing difficulties or learning difficulties.

All students on the post primary transport scheme should be asked to wear face mask unless there is a good reason not to do so.

Face masks should not be worn by any of the following groups:

- Any person with difficulty breathing
- Any person who is unconscious or incapacitated
- Any person who is unable to remove the face-covering without assistance
- Any person who has special needs and who may feel upset or very uncomfortable wearing the face mask, for example persons with intellectual or developmental disabilities, mental health conditions, sensory concerns or tactile sensitivity.

Further advice from the HPSC on the use of face masks in educational settings was received on the 6th August 2020. This advice is available here.

All staff and students wearing face masks should be reminded to not touch the face covering and to wash or sanitise their hands (using hand sanitiser) before putting on and after taking off the face mask.

Information should be provided on the proper use, removal, and washing of cloth face coverings

<https://www.youtube.com/watch?v=T6ZqdpLfSqw>

All teachers and staff should be aware that they should wash or sanitize hands (using a hand sanitizer) before and after helping a student put on or adjust a face mask.

Face masks should be washed after every day of use and/or before being used again, or if visibly soiled.

Face masks should not be worn if they are wet. A wet cloth face covering may make it difficult to breathe.

Schools should consider having additional disposable face coverings available for students, teachers, and staff in case a back-up face mask is needed during the day.

Whilst staff may wish to utilize their own face mask on a day-to-day basis, schools should have available a stock of additional disposable or multi-use face masks, or if appropriate face visors, available for staff in case a back-up face covering is needed throughout the day or where required on an ongoing basis.

Medical Grade Masks

Schools must provide medical grade masks in the EN14683 category to all SNAs and teachers in special schools and special classes and those staff by necessity that need to be in close and continued proximity with pupils with intimate care needs including School Bus Escorts.

Wearing a face mask does not negate the need to stay at home if symptomatic.

Gloves

The use of disposable gloves in the school by students or staff is not generally appropriate but may be necessary for matters such as cleaning, intimate care settings or when administering first aid. Routine use does not protect the wearer and may expose others to risk from contaminated gloves.

Routine use of disposable gloves is not a substitute for hand hygiene.

Aprons

Aprons may also be appropriate in certain circumstances including for intimate care needs or for staff assigned to cleaning an area where a suspected or confirmed case of COVID-19 was present.

Impact of COVID-19 on certain school activities

Choir/Music Performance

Choir practices/performances and music practices/performances involving wind instruments may pose a higher level of risk and special consideration should be given to how they are held ensuring that the room is well-ventilated and the distance between performers is maintained.

Sport Activities

Schools should refer to the HPSC guidance on Return to Sport. Link to return to sport protocols is found here.

<https://www.gov.ie/en/publication/07253-return-to-sport-protocols/>

Shared Equipment

Art – Where possible students should be encouraged to have their own individual art and equipment supplies.

Electronics – Users should sanitize their hands before and after use of devices. Devices will be cleaned by IT Technical staff throughout the day using specialized product..

Musical Equipment/Instruments – To the greatest extent possible, instruments should not be shared between students and if sharing is required, the instruments should be

Library Policy – Where practical students should have their own books. Textbooks that are shared should be covered in a wipeable plastic covering that can be wiped with a suitable household cleaning agent between uses. Students should be encouraged to perform hand hygiene after using any shared item.

Shared Sports Equipment – Minimise equipment sharing and clean shared equipment between uses by different people.

Hygiene and Cleaning in Schools

The Department of Education has provide additional funding to schools to support the enhanced cleaning required to minimise the risks of COVID-19.

The specific advice in relation to school cleaning is set out in the HPSC advice and is covered in the induction training. This advice sets out the cleaning regime required to support schools to prevent COVID-19 infections and the enhanced cleaning required in the event of a suspected cases of COVID-19. Schools are asked to carefully read and understand the cleaning advice and to apply that to all areas of the school as appropriate.

Schools are reminded to take particular care of the hygiene arrangements for hand washing and toilet facilities.

In summary, each school setting should be cleaned at **least once per day**. Additional cleaning if available should be focused on frequently touched surfaces – door handles, hand rails, chairs/arm rests, communal eating areas, sink and toilet facilities.

If students are moving between classrooms consideration may be given to appropriate cleaning products being provided to enable them to wipe down their desk, chair and surface before leaving the room.

All staff will have access to cleaning products and will be required to maintain cleanliness of their own work area.

Staff should thoroughly clean and disinfect their work area before and after use each day.

There will be regular collection of used waste disposal bags from offices and other areas within the school facility.

Shower facilities shall not be available for use by staff or students due to the increased risk associated with communal shower facilities and areas. This shall be reviewed in line with government guidance.

Staff must use and clean their own equipment and utensils (cup, cutlery, plate etc.).

Cleaning/Disinfecting rooms where a student/staff member with suspected COVID-19 was present

The rooms should be cleaned as soon as practicable possible.

Once the room is vacated the room should not be reused until it has been thoroughly cleaned and disinfected and all surfaces are dry.

Disinfection only works on things that are clean. When disinfection is required it is always in addition to cleaning.

Person/s assigned to cleaning should avoid touching their face while they are cleaning and household gloves and a plastic apron.

Clean the environment and furniture using disposable cleaning cloths and a household detergent followed by disinfection with a chlorine based product (household bleach).

Pay special attention to frequently touched surfaces, the back of chairs, couches, door handles and any surfaces that are visibly soiled with body fluids.

Once the room has been cleaned and disinfected and all surfaces are dry, the room can be reused.

If a student or staff diagnosed with COVID-19 spent time in a communal area like a canteen, play area or if they used the toilet or bathroom facilities, then the areas should be cleaned with household detergent followed by a disinfectant (as outlined in the HPSC interim health advice) as soon as is practically possible.

Dealing with a Suspected Case of COVID-19

Staff or students should not attend school if displaying any symptoms of COVID-19. Remind students in your Tutor class of this on a regular basis. The following outlines how this school will deal with a suspected case that may arise in the school setting.

If a student displays symptoms of COVID-19 while at school the following are the procedures to be implemented:

- The teacher asks teacher next door to supervise his/her group while s/he escorts student to isolation room, located in extension area, second room on right.
- Teacher maintains a distance from student/2 metres.
- A supply of masks, sanitation items are kept in the isolation room. Open Windows.
- Once student is in isolation room the teacher/admin staff informs DP/Aileen and teacher returns to class
- DP requests admin staff to inform Parent/Guardian immediately.
- If a second room is required the first extension room is used.
- Room changes are put in place for room student came from and the room is cleaned. A sign is also placed on door indicating that the room is out of use.

- The individual should avoid touching people, surfaces and objects. Advice should be given to the person presenting with symptoms to cover their mouth and nose with the disposable tissue provided when they cough or sneeze and put the tissue in the

waste bag provided;

- If the student is well enough to go home, arrange for them to be transported home by a family member, as soon as possible and advise them to inform their general practitioner by phone of their symptoms. Public transport of any kind should not be used;
- If they are too unwell to go home or advice is required, DP contacts 999 or 112 informing them that the sick person is a COVID-19 suspect.

A staff member presenting with covid symptoms goes home to consult GP/HSE or if too unwell is facilitated in an isolation room. Both teacher/student are reassured and assisted. The HSE will inform any staff/parents who have come into close contact with a diagnosed case via the contact tracing process. The HSE will contact all relevant persons where a diagnosis of COVID-19 is made. The instructions of the HSE should be followed and staff and student confidentiality is essential at all times. School staff should be encouraged to download the HSE COVID-19 tracker app to assist Public Health for contract tracing purposes.

Staff Duties

Staff have a statutory obligation to take reasonable care for their own health and safety and that of their colleagues and other parties.

The cooperation and assistance of all staff is essential to reduce the risk of spread of COVID19 and to protect health and safety as far as possible within the school. All staff have a key role to play.

In this regard and in order to facilitate a safe return to work, these duties include, but are not limited to, the following:

- Adhere to the School COVID-19 Response Plan and the control measures outlined.
- Complete the RTW form before they return to work.
- Must inform the Principal if there are any other circumstances relating to COVID-19, not included in the form, which may need to be disclosed to facilitate their safe return to the workplace.
- New staff must complete COVID-19 Induction Training and any other training required prior to their return to school.
- Must be aware of, and adhere to, good hygiene and respiratory etiquette. Coordinate practices and work with their colleagues to ensure that physical distancing is maintained.
- Make themselves aware of the symptoms of COVID-19 and monitor their own wellbeing.
- Self-isolate at home and contact their GP promptly for further advice if they display any symptoms of COVID-19.
- Not return to or attend school if they have symptoms of COVID-19 under any

circumstances.

- Follow the HSE guidance if they are identified as a close contact.
- If they have travelled outside of Ireland; in such instances staff are advised to consult and follow latest Government advice in relation to foreign travel.
- If they develop any symptoms of COVID-19 whilst within the school facility, they should adhere to the procedure outlined above.
- Keep informed of the updated advice of the public health authorities and comply with same.
- Cooperate with any public health personnel and their school for contact tracing purposes and follow any public health advice given in the event of a case or outbreak in their school
- Undergo any COVID-19 testing that may be required as part of mass or serial testing as advised by Public Health

COVID-19 related absence management

The management of a COVID-19 related absence will be managed in line with agreed procedures with the Department of Education.

Employee Assistance Service

The Department recognises the need for school staff wellbeing and collective self-care. Support for school staff wellbeing will be provided by Department Support Services including the PDST and CSL, as well as by the HSE's Health Promotion Team. An Occupational Health Strategy is in place as a supportive resource for individual staff members in schools. The aim of the Occupational Health Strategy is to promote the health and wellbeing of employees in the workplace, with a strong focus on prevention. The Occupational Health Strategy comprises the Employee Assistance Service and the Occupational Health Service. The Employee Assistance Service (EAS) is provided by Spectrum.Life under the logo of 'Wellbeing Together: Folláinne Le Chéile'.

The EAS is a self-referral service where employees have access to a dedicated free-phone confidential helpline 1800 411 057 available 24 hours a day, 365 days a year providing advice on a range of issues such as wellbeing, legal, financial, mediation, management support etc. The service is also available via SMS, WhatsApp, e-mail, live chat and call back request. All points of contact for the service are qualified, accredited and experienced mental health professionals.

Where required, short-term counselling is available to employees and their families (over the age of 18 years and living at home).

The EAS also provides advice and support to managers and delivers interventions to help them deal with health and wellbeing issues in the workplace.

A bespoke wellbeing portal and app is available which offers access to podcasts, blogs, live chats and videos on topics around wellbeing and mental health, family life, exercise and nutrition. E-Learning programmes across mental health, sleep and a range of wellbeing topics are also available. In addition online cognitive behavioural therapy is provided. As part of the services provided by Spectrum.Life, a Mental Health Promotion Manager is available to develop and deliver evidence based mental health and wellbeing initiatives to reduce stigma and improve

mental health literacy and to increase engagement with the service. Spectrum.Life also provides a series of webinars and presentations to promote wellbeing in schools.

Risk Assessment

COVID-19 Risk Template (List identifies COVID-19 as the hazard and outlines infection prevention control measures required to deal with this risk)

Hazard	Is the hazard present ? Y/N	What is the risk ?	Risk rating H=High M=Medium L=Low	Controls (When all control	Is this control in place ?	Action/to do list/outstanding controls *Risk rating applies to	Person responsible	Signature and date when action
COVID-19	N	Illness	H	School Covid19 Response Plan in place in line with Department of Education guidance and the Work Safety Protocol and public health advice	Yes	<p><i>Examples of Actions</i></p> <p>Follow public health guidance from HSE re hygiene and respiratory etiquette</p> <p>Complete School COVID-19 Policy Statement</p> <p>Return to Work Forms received and reviewed</p> <p>Induction Training provided</p> <p>Contact log in place</p> <p>Complete checklists as required: School Management How to deal with a suspected case</p> <p>Follow Department of Education Guidance on mask wearing, re-configuration of classrooms and social distancing</p>	Name of staff member Principal Pauline Duffy	Pauline Duffy

If there is one or more High Risk (H) actions needed, then the risk of injury could be high and immediate action should be taken. Medium Risk (M) actions should be dealt with as soon as possible. Low Risk (L) actions should be dealt with as soon as practicable.

Risk Assessment carried out by: Pauline Duffy Principal, Anthony Dowling LWR, Nicola Walsh LWR

Health and Safety Control of COVID-19 Policy for Students

Collinstown Park Community College

1. Introduction

Under the Safety Health and Welfare at Work Act 2005, the board of management/ETB of Collinstown Park Community College as employer is required to ensure, so far as is reasonably practicable, the safety, health and welfare at work of all employees of the school. The employer is further required to manage and conduct the school in such a way as to ensure, so far as is reasonably practicable, that individuals at the place of work who are not employees, such as students, parents/guardians, visitors to the school, are not exposed to risks to their safety, health or welfare.

This policy is influenced by the need to minimise the risk of introduction of COVID-19 into the school community and to prevent its spread. Although it is acknowledged that no single action or set of actions will completely eliminate the risk of COVID-19 transmission, adherence to this policy will contribute to the reduction of that risk of transmission.

In accordance with this policy, students are expected to comply with the standards of behaviour set out in this policy or as directed by the school to prevent the introduction and spread of COVID-19. The COVID-19 control measures are consistent with current advice from the HSE, the Health and Safety Authority, the Department of Education and Skills and the Department of Foreign Affairs and, as such, may be subject to change. Students and parents/guardians will be notified of any changes to the control measures.

Students are expected to comply with all directions from school staff in relation to the school's COVID-19 control measures. Any failure or refusal to comply with this policy or to follow instructions of school staff should be dealt with in accordance with the school's Code of Behaviour.

Parents/guardians are required to supply the school with a phone number/s of available person/s who can be contacted at all times and who will be available to collect a student from the school should the need arise.

2. Symptoms of COVID-19

Symptoms of COVID-19 are similar to symptoms of cold or flu. The most common symptoms are:

- fever
- cough
- shortness of breath
- loss of sense of smell or taste

More information regarding the most up-to-date signs and symptoms of COVID-19 is available on the HSE website,

3. Standards of Behaviour expected of students to help prevent the introduction or spread of COVID -19 in the school

- Students are expected to comply with any control measures directed by the school to prevent the introduction and spread of COVID-19, including, but not limited to:
- maintaining a social-distance of at least 1 metre and where possible, 2 metres, from other students and staff;
- wearing a face covering (applicable at post-primary level). All students at post-primary level, are required to wear a face covering subject to a limited number of exceptions set out in relevant Department of Education guidance. Face coverings must not contain any slogans/logos/images that may cause upset or be deemed offensive to any member of the school community.
- performing hand hygiene with a hand sanitiser on entering the school.
- repeating hand-hygiene at regular intervals throughout school day and when directed by school staff;
- maintaining good respiratory-hygiene. In this regard students should:
 - cover nose/mouth with a tissue when coughing/sneezing and dispose of used tissue in waste bin and perform hand hygiene
 - cough or sneeze into the inner elbow (upper sleeve) rather than into the hand, if no tissues are available.
 - keep contaminated hands away from the eyes and nose
 - carry out hand hygiene after contact with respiratory secretions and contaminated objects/materials
 - not spit or deliberately cough or sneeze at or towards any other person in the school
- not sharing materials or stationery, such as pens, calculators, rulers, etc. with other students;
- not attending school for 14 days after returning from travel out of the country in line with Government guidelines for travel;
- not attending school if displaying COVID-19 like symptoms and remaining out of school for such period as is required in accordance with HSE/GP advice
- not attending school where tested positive for COVID-19 and remaining out of school for such period as is required in accordance with HSE/GP advice
- not attending school if identified by the HSE as a person who has been in contact with another person, unless fully vaccinated who has contracted COVID-19 and remaining out of school for such period as is required in accordance with HSE/GP advice; ☒ not attending school if a member of the student's household is displaying COVID-19 symptoms, unless fully vaccinated and remaining out of school for such period as is required in accordance with HSE/GP advice.
- telling a teacher or other member of staff where a student feels unwell at school. In that regard–
 - the student will require to be collected from the school as soon as possible by a parent/guardian or a person designated by the parent/guardian for such purpose.
 - parents must ensure that the school has up-to-date contact details so that they can be contacted by the school if required. ☒ complying with any other such directions as advised by the DES and/or HSE and communicated to the school community.

Students should be aware that the above list is non-exhaustive. Students are expected to follow all instructions from staff which aim to prevent the introduction COVID-19 into the school and minimise its spread.

4. Failure to comply with the standards of behaviour

Failure by a student to comply with the standards of behaviour expected to help prevent the introduction and spread of COVID-19 will constitute a breach of the Code of Behaviour of Collinstown Park Community College and s/he may be subject to sanction up to and including suspension or permanent exclusion.

Any actions or sanctions taken in respect of alleged breaches of the code of behaviour will be carried out in accordance with the provisions of the school's code of behaviour, the requirements of the EWS Guidelines on Developing a Code of Behaviour and relevant requirements of the Education and Welfare Act 2000. Sanctions will be proportionate to the nature, seriousness and context of the behaviour.

A student engaging in aggressive, threatening or unacceptable behaviour that creates or increases the risk of COVID-19 infection for staff, other students or visitors to the school may be removed from class and, if necessary, from the school premises with immediate effect, pending any further action to be taken in accordance with the school's code of behaviour.
